Abstract

Cosmetic Method and Composition for Enhancing Attractiveness

5 Hair removal, especially from armpits damages skin, for  
example by irritating it, and this can be exacerbated by the  
application of antiperspirants to control body odour  
generation. In the present invention, the deleterious  
effects of hair removal, eg shaving, and antiperspirancy can  
10 be ameliorated by employing antiperspirant compositions  
containing a natural oil and glycerol to a combined  
concentration of from 1.5 to 15% by weight and in a weight  
ratio of from 4:1 to 1:4.
